TENTH REPORT

OF THE

BOARD OF SUPERINTENDENCE OF DUBLIN HOSPITALS.

TO HIS EXCELLENCY JAMES MARQUESS OF ABERCORN, K.G.,
Lord Lieutenant-General and General Governor of Ireland.

35, Dawson-street, Dublin,
5th May, 1868.

MAY IT PLEASE YOUR EXCELLENCY,

We, the Board of Superintendence of Dublin Hospitals, have the honour to submit to your Excellency this our Tenth Annual Report.

During the year ended 31st March, 1867, we have inspected the several Institutions which receive grants from Parliament. These are—

1. The Westmoreland Lock Hospital.
2. The House of Industry Hospitals, viz.:—
   a. The Hardwicke Fever Hospital.
   b. The Whitworth Medical Hospital.
   c. The Richmond Surgical Hospital.
3. Steevens' Hospital.
4. The Meath Hospital and County Dublin Infirmary.
5. The Cork-street Fever Hospital.
6. The Rotundo Lying-in Hospital.
7. The Coombe Lying-in Hospital.
8. St. Mark's Ophthalmic Hospital; and
9. The Hospital for Incurables, which receives a portion of the Concordatum Fund.

On the occasion of those inspections we made inquiry respecting the state and condition of each hospital, to ascertain if the comforts of the patients were duly provided for, the buildings kept in sufficient repair, and the general management of each satisfactory. We have since issued the Circular (No. 1, Appendix) requesting such information or suggestions as the Governors of each hospital might wish to offer in respect to its funds, management, &c., and we give their replies in the Appendix (No. 2).

THE WESTMORELAND LOCK HOSPITAL.

The Westmoreland Lock Hospital.

64 patients remained in the Lock Hospital on the 1st of April, 1866; 664 were admitted, 655 were discharged, and 9 died, in the year ended 31st March, 1867, and 74 remained at that period. The hospital on inspection was in a very satisfactory state.

Printed image digitised by the University of Southampton Library Digitisation Unit

28 of the patients are stated to have returned to their friends; 36 to have gone to penitentiaries, and 27 to workhouses.

The average daily number of beds occupied throughout the year was 72⅔; the time spent in hospital by each patient averaged 36 days.

Steevens' Hospital.

Steevens' Hospital.

190 patients remained in Steevens' Hospital on the 1st of April, 1866; 2,087 were admitted in the year ended 31st March, 1867; 2,025 were discharged, 82 died, and 170 remained at the latter date. The mortality was 3·88 per cent. The average daily number throughout the year was 154.

The hospital, on inspection, was in a satisfactory condition.

From the Maternity department of the hospital 149 extern labour cases were attended.

The House of Industry Hospitals.

The House of Industry Hospitals.

88 patients remained in the Hardwicke Fever Hospital on the 1st of April, 1866; 1,380 were admitted in the year ended 31st March, 1867; 1,156 were discharged, 246 died, and 68 remained at that date; 187 were cases of cholera, of which 123 died, being a mortality of 65 per cent; 1,193 were fever patients, 123 of whom died, being a mortality on that class of 9 per cent.

75 patients remained in the Whitworth; 1,041 were admitted; 991 were discharged; 71 died; and 55 remained at the end of the year.

95 patients remained in the Richmond. 1,126 were admitted; 1,110 were discharged; 22 died; and 89 remained on the 31st March, 1867.

The mortality in the Hardwicke, including the Cholera cases, was 17·57 per cent.; in the Whitworth, 4·69; and in the Richmond 1·94.

The average daily number throughout the year in the Hardwicke was 68; in the Whitworth 65; in the Richmond 84.

The three hospitals, on inspection, were in a very satisfactory condition.

31 cases of small-pox were admitted in the year, of which 11 had not been vaccinated, and 5 died.

The Richmond Hospital has been much improved by the erection of two commodious wards, capable of accommodating forty patients.

The Meath Hospital.

The Meath Hospital.

63 patients remained in the Infirmary wards of the Meath Hospital on the 1st of April, 1866. 1,000 were admitted in the year ended 31st March, 1867; 845 were discharged; 138 died; and 80 remained at the end of the year.

130 of these were cholera patients, who were treated in a detached building connected with the dispensary department of the hospital, and of whom 68 died. Exclusive of the cholera patients,

Printed image digitised by the University of Southampton Library Digitisation Unit

the mortality was 8 per cent.; of the cholera cases it was 52 per cent.

20 patients remained in the fever wards on the 1st of April, 1866; 207 were admitted; 203 were discharged; 16 died in the year; and 8 remained on the 31st March, 1867.

The mortality in the fever wards was 7·30 per cent.

The daily average number in the infirmary wards throughout the year, including the cholera patients, was 74½, that in the fever wards 11½.

The hospital, on inspection, was in a satisfactory condition.

10 small-pox cases were admitted in the year, and 1 died.

The Cork-street Fever Hospital.

The Cork-street Fever Hospital

106 patients remained in the Cork-street Fever Hospital on the first of April, 1866. 1,774 were admitted in the year ended 31st March, 1867; 1,609 were discharged; 162 died, and 79 remained at that period. The mortality was 9·14 per cent. The average daily number of patients throughout the year was 98½.

The hospital was clean, and the comforts of the patients appeared to be well attended to.

The Rotundo Lying-in Hospital.

The Rotundo Lying-in Hospital.

48 labour cases remained in the Rotundo Lying-in Hospital on the 1st of April, 1866; 1,151 were admitted in the year ended 31st March, 1867, 1,139 were discharged, 120 of them not being in labour; 40 died, and 20 remained at the end of the year.

9 chronic patients remained on the 1st of April, 1866; 159 were admitted, 156 were discharged, 5 died, and 7 remained on the 31st March, 1867.

The mortality of the 1,019 deliveries was one in 25½, or 3·77 per cent., that on the chronic patients was 3·10 per cent.

The average daily number of labour cases throughout the year was 30, that of the chronic class, 9½.

36 extern labour cases were attended in the year.

The Coombe Lying-in Hospital.

The Coombe Lying-in Hospital.

11 labour cases remained in the Coombe Lying-in Hospital on the 1st of April, 1866; 483 were admitted in the year ended 31st March, 1867; 476 were discharged, 52 of whom were not in labour, 9 died, and 9 remained at that date.

8 patients affected with chronic diseases remained on the 1st of April, 1866; 54 were admitted, 57 were discharged, 1 died, and 9 remained on the 31st March, 1867.

The mortality of the labour class was one in 47 of the deliveries, or 2·8 per cent.; that of the chronic class was 1·72 per cent.

The average daily number of patients in hospital throughout the year was 18½.

791 labour cases were attended at their own homes during the year.

The hospital on inspection was in a satisfactory condition.

Printed image digitised by the University of Southampton Library Digitisation Unit

The Hospital for Incurables.

The Hospital for Incurables.

146 patients remained in this hospital on the 1st of April, 1866; 42 were admitted in the year ended 31st March, 1867; one resigned, or was discharged, 31 died, and 156 remained at the end of the year.

The hospital was in a satisfactory state on inspection.

The daily average number of patients throughout the year was 151¾.

St. Mark's Ophthalmic Hospital.

St. Mark's Ophthalmic Hospital.

24 patients remained in this hospital on the 1st of April, 1866; 199 were admitted in the year ended 31st March, 1867; 212 were discharged, 1 died, and 10 remained at the end of the year.

The average daily number in hospital throughout the year was 29.

The institution was in a very satisfactory condition when inspected. 109 patients were received from 47 Poor Law Unions in the course of the year.

Classified lists of the diseases of the patients admitted into each hospital, in the year ended March 1867, and of the diseases of which patients died in each, are given in the Appendix (No. 3).

We append Tables, Nos. 4, 5, and 6, which show in detail the income and expenditure of each institution in the above year; the number of patients treated; the mortality in each; the average daily number of beds occupied in each throughout each year; and the average annual cost per bed in each hospital.

APPENDIX.

Appendix No. 1.

35, Dawson-street, Dublin,
17th February, 1868.

Sir,—I am dirsoted by the Board of Superintendenos of Dublin Hospitals to requsst that the Governors of the
Hospital will supply thsm with any information or suggestions which thsy dssm neoessary to give respecting the state and condition of that Institutiou, preparatory to the Board's Annual Report to His Excellsncy the Lord Lieutenant.

I am, &c.,

Denis Phelan, *Secretary.*

The Rsgistrar of the
—— Hospital.

Appendix No. 2.

Westmoreland Lock Hospital,
Dublin, 18th March, 1868.

Sir,—I am desired by ths Board of Governors of this Hospital to acknowledge the receipt of your letter, datsd 17th February, 1868, and requesting that such information or suggestions may bs supplied as the Governors deem necessary to give respectiug the state and condition of this Institution.

In reply, I am to inform yon that the Governors have no suggestions to offer except to renew their application for a sum of monsy to enable them to effect the repair of the roof of the main building, whioh requirss immediate attention.

I am, sir, your obedient servant,

Benjamin F. M'Dowell, M.B. U.D.

To Dr. Phelan,
&c. &c.

Fever Hospital and House of Recovery,
Cork-street, Dublin, March 27, 1868.

Sir,—I am directsd by the Managing Committse of this Institution to state, in answer to your letter, that no new remarks or suggestions sssm necessary to bo made relative to the state of this Hospital during the year 1866-67.

I have the honour to be, sir, your obedient servant,

T. F. Eustace, *Registrar.*

To Dr. Phelan, &c.,
Secretary to Board of Supsrintendence of
Dublin Hospitals.

Doctor Stevens' Hospital, Dublin,
20th February, 1868.

Sir,—In reply to your communication of the 17th inst., I am directed by ths Governors of this Hospital to state, that lavatories for the use of the constabulary patients have lately been erected in the upper story, which

Printed image digitised by the University of Southampton Library Digitisation Unit

will greatly conduce to the comfort of those patients. They have also ordered two new iron baths, lined with porcelain, which it is expected will prove a great improvement on those already in use.

I have the honour to be, sir, your very obedient servant,

R. B. M'VITTIE.

D. Phelan, esq., M.D.

Meath Hospital,
24th March, 1868.

SIR,—I am directed by the Governors of this Hospital to state, in reply to your letter of the 17th ult., that they have not any suggestions to offer. But the Board request that if possible a copy of the report concerning this Hospital be furnished them before publication.

I am, sir, your obedient servant,

EDWARD B. STANLEY, *Secretary.*

To Denis Phelan, esq.,
Secretary, Hospital Board of Superintendence.

House of Industry Hospitals,
Dublin, March 5, 1868.

SIR,—Having laid before the Board of Governors of these Hospitals your circular, dated 17th ultimo, requesting to be supplied with any information or suggestions which the Governors deem necessary to give respecting the state and condition of this Institution, preparatory to the Board of Superintendence presenting their Annual Report for the year ended 31st March, 1867, to His Excellency the Lord Lieutenant, I am directed to inform you in reply, that the condition of the Institution is most satisfactory, and that its efficiency for the relief of the sick, and as a great clinical school for the study and treatment of disease in every form, continues to be well maintained.

Several improvements in appropriation of rooms, and in ventilation and lighting, have been carried out, but the Board of Governors do not deem it necessary to enter into the details.

The Governors have no suggestions to offer.

I am, sir, your obedient servant,

JAMES WILSON HUGHES, *Chief Clerk, &c.*

The Secretary to the
Board of Superintendence of Dublin Hospitals.

The Lying-in Hospital, Dublin,
28th March, 1868.

SIR,—I am directed by the Governors of the Lying-in Hospital to acknowledge your letter of the 17th ultimo, requesting that the Board of Superintendence of Dublin Hospitals may be supplied with any information or suggestions which they may deem necessary to give respecting the state and condition of that Institution; and, in reply, I am instructed to inform you, that the Governors have no suggestions to offer on the present occasion.

The Governors have recently had under consideration the subject of improved ventilation of the Hospital, and have adopted some measures with that view, which they trust may prove advantageous in promoting its sanitary condition.

Printed image digitised by the University of Southampton Library Digitisation Unit

The returns already furnished for the year ending 31st March, 1867, contain all the other information the Governors have to communicate.

I am, sir, your obedient servant,

J. G. STRICKLAND, *Secretary.*

Denis Phelan, esq.,
Secretary, Board of Superintendence of
Dublin Hospitals.

Hospital for Incurables,
18th March, 1868.

SIR,—I beg to acknowledge the receipt of your letter of the 17th February, requesting that the Governors of this Hospital would supply the Board of Superintendence with any information or suggestions which they may deem advisable to give respecting the state and condition of the Institution, preparatory to their Annual Report to His Excellency the Lord Lieutenant; and, in reply thereto, I am directed to inform you that the Governors have no suggestions to offer, but are happy to state that the Hospital (now containing 159 patients) is at present in a most efficient and satisfactory condition, and the entire building maintained in every respect in the highest order, with a strict regard to economy.

I have the honour to be, sir, your obedient servant,

WM. ALEX. GARRETT, *Registrar.*

To Denis Phelan, esq.,
Secretary, Board of Superintendence.

Coombe Lying-in Hospital,
Dublin, 24th March, 1868.

SIR,—I have been directed by the Guardians and Directors of this Hospital to acquaint you for the information of the Board of Superintendence of the Dublin Hospitals, that since the date of their last communication to you, at the close of the preceding year, Her Most Gracious Majesty the Queen has, on the recommendation of His Excellency the Lord Lieutenant, granted Her Royal Charter, incorporating the Managers of the Institution into a Body Politic, under the designation of the Guardians and Directors of the Coombe Lying-in Hospital, Dublin.

This Charter removes the difficulties which caused the Poor Law Commissioners to withdraw their recognition of the Hospital, and as it empowers the Medical Officers of the Institution to examine the pupils attending its practice, and to issue certificates attesting their competence to practice midwifery, and further provides, that the certificates issued prior to its date shall have the same force and effect as those issued subsequent thereto, the Poor Law Commissioners now receive the diploma of the hospital from candidates for appointments under their Board.

The law proceedings in relation to the plot of ground adjoining the hospital, whereon it is contempleted to build the additional wing, have made some little progress, and the "Guardians and Directors" hope that they will shortly be terminated.

There is no other subject to which the Guardians and Directors think it necessary to direct the attention of the Board of Superintendence.

I have the honour to be, sir, your obedient servant,

JOSEPH MULLEN, *Assistant Secretary.*

Denis Phelan, esq.,
Secretary, Dublin Hospital Board.
